Because of limited space, it is not probable that pravision will be or can be made to provide accommodations for the practice of their reporterial duties. All the space within the railing, it is stated, will be reserved for members of the local bar and visiting counsel. The space within the railing, it is estimated, will accommodate about two hundred. District Attorney Gould and those of his assistants who will assist in the prosecution of the case, will occupy seats at a table a little to the right, and in front of the presiding justice. Counsel for the defence will be on his right, immediately in front of the court and just to the left of the representatives of the press associations.

The space back of the railing, to which entrance is had through the west door to Criminal Court No. 1, where the trial will take place, will be given up to the general public. Those who come early will have a great advantage, for it is understood that no crowding will be allowed and the strictest quict will be insisted upon by the marshal. #### MISSION MATTERS DISCUSSED. Presbyterian Board Holds Its Regular Fall Session.

The regular fall session of the Presby-terian Missionary Board of this city was held yesterday morning in the First Presbyterian Church, on Four-and-a-half Street northwest. The president of the board, Mrs. Jennie S. Hamlin, pre-sided, while Miss Deeble acted as secre-

tary.

The room within which the meeting was held was filled with the delegates from the various other Presbyterian churches in this city, and important matters pertaining to missionary work were freely discussed.

#### To Keep Their Digestion Perfect Nothing Is So Safe and Pleasant as Stuart's Dyspepsia Tablets.

I've had the best of luck with them. My three-year-old girl takes them as readily as candy. I have only to say 'tableta' and she drops everything and runs for

can great mational calamity, the assamination of President McKinley, the intelligence of which we heard with unuterable horror.

A Hoffalo mother, a short time ago, who despaired of the life of her babe, was so delighted with the results from giving the child these tablets that she went before the notary public of Eric County, N. Y. and made the following affidavit:

Gentlemen:—Stuart's Dyspepsia Tablets were recommended to me for my two-months-old baby which was sick and puny and the doctors said was suffering from indigestion. I took the child to the hospital, but there found no relief. A friend mentioned the Stuart Tablets and I procured a box from my druggist and used only the large sweet lozenges in the box and was delighted to find they were just the thing for my baby. I feel justified in saying that Stuart's Dyspepsia Tablets saved my child's life.

Subscribed and sworn to before me this 12th day of April, 1897.

Notary Public in and for Eric Co, N. Y. For babics, no matter how young or delicate, the tablets will accomplish wonders in increasing fiegh, appetite and growth. Use only the large sweet tablets in every box. Full sized hoxes are sold by all druggists for 59 cents, and no pareous hould neglect the use of this safe remains on the form of the little President and also to President for all stomach and bowel roubles if the child is alling in any way regarding its food or assimilation.

Ruart's Dyspepsia Tablets have been known for years as the best preparation for all stomach troubles, whether in adults or infants.

#### LESSONS IN GOOD ROADS. The Southern Railway to Send a

Well-Equipped Train. President W. H. Moore, of the National Good Roads Association, is in the city perfecting arrangements with the South-ern Rallway to run a "Good Roads special train" over the lines of that system. It is planned to stop at various points for the purpose of building sample roads and lding meetings, with the view of educating the people along the Southern Railway in practical road building. Several days will be spent at each point, giving ample time to construct a road from one half to one mile long.

This is distinctively a Southern Railway undertaking and will be carried out at a heavy expense to that company, good roads for the South, and this latest movement is in line with the policy he has followed since the organization of the Southers Railway Company, encouraging development and growth in all portions reached by its lines. The train will leave Washington about November I, will consist of about ten cars, and will have on board all necessary machinery for the building of roads and such officers and road experts as will be required to make the object lesson thoroughly practical and efficient. The entire trip is expected to consume several weeks.

Thousands of men and wemen have found Stuart's Dyspepsia Tablets the safest and most reliable preparation for any form of indigestion or stomach trouble.

Thousands of people who are not sick, but are well and wish to keep well take Stuart's Tablets after every ment to ensure perfect digestion and avoid trouble. But it is not generally known that the Tablets are just as good and wholesome for little folks as for their elders.

Little children who are pale, thin and have no appetite, or do not grow or thrive, should use the tablets after eating and will derive great benefit from them.

Mrs. G. H. Crotsley, Ms. Washington Street, Hoboken, New Jersey, writes, "Stuart's Dyspepsia Tablets just fill the bill for children as well as for older folks.

HYATTSVILLE, Md., Oct. 10.—The Confederate reunion, which was postponed from September 10 on account of the assissination of President McKiniey, was held today at the Maxonie Hall. By 10 o clock the Washington contingent began to arrive by way of the electric railway. A procession of about a hundred Confederates was formed and marched to the place of meeting. The hall was tastefully decorated with United States and Confederate flags and the portraits of Lee, Jackson, Gordon, Wade Hampton, and others.

The meeting was called to order by John F. Hickey, who originated the idea of holding the reunion, and on his motion for Challeghan, of Washington, was made chairman. The prayer was by Father Tower, pastor of St. Jerome's Church. Mayor Tlerney welcomed the velerans and assured them that Hyatts-ville was theirs for the day. Robert W. ## LIGHTING OF THE STREETS

The Annual Report of the Electrical Department. \*

A Period of Considerable Activity in the Extension of Lamps and of the Fire Alarm Service-Poles, Cables, Wires, and Conduits.

Walter C. Allen, the Electrical Engineer yesterday submitted his amount report to the Commissioners. The report covers the nding June 20, 1991, and deals partlenlarly with the extension of the street Eghting service, and the additions made to the police and fire alarm tacilities during that period. The report fronts first of gas lighting, of which Mr. Allen says: The regular gas lighting service has

been maintained at its usual high effi-ciency throughout the year. The lauterns are kept clean, the burners average more and minor defects are promptly remedies "Owing to the establishment of are lamps on several streets where Welsbach lamps were imintained, a number of the lamps were transferred to other locallties, and eighteen added to the number previously maintained. The service has for the found year 1982 has been increased from \$5,000 to \$10,000, while for the year 1903 I have estimated for \$20,000 for this

"During the year all the gas posts and lanterns were thoroughly painted by the contractors under the direct supervision

The report shows that there were fiftyone additional gas lamps erected in the northwestern part of the city, nineteen in the northeast, twenty in the south-east, and seven in the southwest. In the suburban sections there were sixty-two gas lamps for street lighting erected in the northwest, twenty-eight in the northeast, seventeen in the southcast and two in Georgetown. Additional Weisbach lamps were erected to the number of seventy-two in the northwest section.

The report states that the contract for naphtha street lighting was awarded to naphtha street lighting was awarded to L. S. Nicolai, after public advertisement, at the rate of \$19.20 per lamp per annum. The candle power required by the contract was increased from sixteen to twenty. The District furnished the posts and lanterns, the centractor supplying the burners, tanks and pipes. It says that during the year the naphtha posts and lanterns were thoroughly painted by the centractor under the direct supervision of the office.

Additional naphtha lamps were established as follows: Seven in the northwest section, 6 in the northeast. It in the southwast and 16 in the southwest. In the county 29 were added in the northwest section, 10 in the northeast, 22 in the southwast and 4 in Georgetown.

#### MOTOR RECORDS BROKEN. Fournier Makes an Automobile Go

Six Miles in 6:47.

NEW YORK, Oct./ 10.—An automobile unning on an aval traiting track at Em-pire City Park today traveled one, two, three, four, five and six miles each n time faster than any man, machine or beast ever went around a track before. The time for the six miles was 8 minutes, 47 seconds. The fastest mile, the third, was done in 1 minute, 6 + 5 seconds. This is faster time than has ever beer

nade on a straight-away road by horse, bleyele or any machine except a locomo-tive running on rails. The only feat that ompares with it is that of Charles Murwho rode a bicycle under abnormal onditions behind a locomotive, trailing car with a bood, in 57 4-5 seconds in 1899. The automobile that performed the great feat of today was one of French make. It was "unipulated by Henri Fournier, and his impanion was William K. Vanderbilt, Jr., who was a guest. The roles require two men to be in the motor ace test. The second man is needed to ballast, and usually he is a mechanic Mr. Vanderbilt did not act as mechanic Mr. Vanderbilt did not act as mechanic. Fournier did it all, and the millionaire simply sat erect and smiled and chatted as if out for a pleasure trip while going around the one-mile dirt girdle at a faster clip than he had ever traveled before unless it was behind one of the locomotives in which he holds a share of interest.

About five hundred persons watched agape while the huge machine whizzed about the track, half concealed in the dust that had rolled up behind it in the previous circuit, for so fast did the motor wagon fly that after the first mile it continually reached its own dust raised in the previous lap of the huge one-mile oval, it was an evil ride to watch, but young Vanderbilt seemed to enjoy it. As for Fournier he is nicknamed "The Daredevil." He seldom goes out except to lower records.

devil. He seldom goes out except to lower records.

He had the same machine in which he won the famous Partis-Berlin race last summer by traveling 900 miles at an average speed of 47 miles an hour, and running over a few dogs and persons. It was his own record that Fournier broke and he did it by nearly six seconds. The best former world's record was I minute and Il seconds made by Fournier at Fort Erie last month.

Following is the time made by Fournier in comparison with the records:

#### BOUGHT BY MR. WHITNEY. Endurance By Right Added to His Racing Stable.

NEW YORK, Oct. 30.-William C. Whitney added the champion filly Endurance By Right, by Inspector B.-Early Morn, today to his already formidable string of two-year-olds. At Morris Park it was announced that John E. Madden pur-chased the filly from John Schorr, of Memphis, on Wednesday night and that Madden then sold her this morning to Mr. Whitney for a price that was generally reported to be \$5,600.

In securing Endurance By Right Mr.

Whitney not only purchases her running qualities, but will also send her to his breeding farm when her career on the track is ended. It is believed that Mr. Madden merely acted for Mr. Whitney in the transaction and that Mr. Schorr received \$55,000 for the daughter of inspector B.

#### FREEDMAN'S HOSPITAL REPORT Surgical Work Conducted at Ex-

pense of the Medical. The Interior Department yesterday man's Hospital for the fiscal year ended June 20, 1801. The report is brief, but treats of many subjects, and is the work of Dr. W. A. Warfield, surgeon-in-chief. Dr. Warfield was only recently selected as the head of the institution by the Secretary of the Interior, although he had been serving as acting surgeon-in-chieffor several months, filling the vacancy oc asioned by the resignation of Dr. Curtis

his predecessor.

Dr. Warfield in his report says that owing to the brief period during which the entire work of the institution has been under his supervision he is mable to collect and formulate the necessary data.

ander his supervision he is made to conlect and formulate the necessary data.

He says:

"I have been in charge of the hospital less than one month, and have been
compelled to continue the executive and
professional spart of the general work
here just at the point where my predecessor, Dr. A. M. Carris, left off.

"The general work of the hospital during the past year hav been conducted
along the lines indicated in our last anmual report, and with but few exceptions
the officials and employees of the hospital
have rendered faithful and efficient service in the discharge of their duties. But
it has been a matter of quite frequent
comment that the surgical work of the
hospital has been made apparent by
the increased per cent of loss in medical
cases and by the facility with which the
needs of the surgical department were
satisfied while those of the medical department were often unheeded.

"This situation hinders the progress of
the general work in the hospital, and
thwarts its development along comprehensive and practical lines. In my opinion neither of these branches of the hospital work should be allowed to grow at
the expense of the other; both should be
developed together and provided with
equal facilities."

The report adds further that the whole

equal facilities. The report adds further that the whole number of patients treated by the institution during the last year represents an increase of only eight beyond the number applying for treatment during the previous year.

Dr. Warfleid made several recommendations in his report. He asks that the force now employed in the building be increased from four to six. He also calls the attention of the Secretary to the fact that a new building is needed of sufficient size to accommodate all patients under one roof to obviate the present method of scattering them about in various small buildings. This need has been strongly presented to the Interior Department, says Dr. Warfleid, for the past ten years, and its urgency grows stronger, and the necessity more apparent every year.

### Boy Sent to Reform School.

Maxwell Smith, colored, twelve years of ag as committed to the Reform School by was committed to the Record Science by Joseph Scott in the United States branch of the Police Court yesterday. The mother of the boy was the clifed witness against him. She said he was idle and incorrigible, and that she wanted him sent where he would be restrained, as she had failed to reform him of his bad habits.

#### STOLEN MONEY RECOVERED. Thief Spends Little of the O'Learys'

Life Savings. Policeman Whalen, stationed about the Pennsylvania depot, arrested Blanche Talbort, eighteen years old, colored, last night, charged with the robbery of \$800 cesterday from the home of Mrs. Johannah O'Leary, 702 First Street northeast. The young woman is lodged at the House of Detention. She is well known to the police, as she has before been under arrest on various charges. About \$755 in money, clething and other goods, which the prisoner had purchased presumably out of the funds taken from the O'Leury

of the woman. Following the robbery yesterday morning, which was reported about noon, at To Gary E. Guy is left a vacu ing, which was reported about noon, a search was instituted for the Taibott woman, upon whom suspicion fastened from the very nature of the story told by Mrs. O'Leary. The latter and her son, Michael O'Leary, who was recently an employe of the Cranford Paving Company, and is now working on the new Government Printing Office, have fived in the little frame house on First Street for fifteen years. The money represented their life savings. Mrs. O'Leary is overeightly years old.

Shortly after Michael O'Leary went to work yesterday morning, Blanche Taibott appeared at his home where she was known to Mrs. O'Leary. The latter had her money in an old purse, which was in a black hag in the pocket of a skirt. This skirt was wrapped in an apron, and was lying on the table in the front room.
